

**YOUR
BENEFIT:
AGROLAB,
MORE THAN
ANALYSIS**

PEOPLE WITH A SENSE OF RESPONSIBILITY

AGROLAB HAS ALWAYS STOOD FOR EXCELLENT SERVICE.

Customers can expect good consultancy and support right from the initial contact with sales representatives to the delivery of results. AGROLAB has made several principles the rule to meet this high standard.

Every customer has a dedicated personal advisor on site and in the lab. The sales representative is responsible for dealing with all matters related to the proposal. A scientifically trained advisor at the laboratories knowledgeably informs you about all the analysis issues.

In some matrices, AGROLAB provides standardised containers and prepared bottles as well as suitable transport boxes to ensure analytical quality and organises the logistics. An AGROLAB employee will take the samples on request.

ALOORA, our customer portal, simplifies and accelerates the processing of your analytical procedures - from issuing a request to obtaining the report. All the requests, results and invoices can be viewed online at any time.

FIRST-CLASS ANALYSIS, EXPERT ADVICE

The AGROLAB GROUP analyses roughly 12,500 samples a day with up to 800 individual parameters per sample. This routine makes the laboratory group an experienced and professional partner.

ENVIRONMENTAL ANALYSIS

AGROLAB offers extensive analysis of soils, sediment, sludge, mineral and non-mineral solid waste, refuse-derived fuels waste oil, gases and air.

AGRICULTURAL ANALYSIS

AGROLAB analyses all the components of agriculture such as soils, fertilisers and crop quality.

WATER ANALYSIS

AGROLAB analyses drinking water, ground, surface, seepage and waste water for relevant chemical, physical and microbiological parameters including more than 700 pesticides.

FOOD ANALYSIS

AGROLAB offers the whole range of analysis ensuring food quality and safety.

FEED ANALYSIS

AGROLAB analyses all kinds of feed for ingredients and contaminants and offers a comprehensive range of parameters.

YOUR SAMPLES IN COMPETENT HANDS

FOUR QUALITY FEATURES MAKE THE AGROLAB GROUP'S WORK UNIQUE:

TIMELINESS AND QUALITY: AGROLAB is well known for sticking fastidiously to agreed deadlines. Efficient organisational processes also guarantee the quickest possible dependable results.

VALUE FOR MONEY: AGROLAB is modest and always keeps a close eye on costs. This also makes AGROLAB one of the market leaders in providing value for money.

CUSTOMER FOCUS: At AGROLAB the staff has a sense of responsibility towards the customers, starting with the taking of samples to delivering the analysis data. Each customer has a personal contact person, both on site and in the laboratory.

DIGITAL SUPPORT: IT support is used consistently not just in the lab. AGROLAB is taking another step towards Industry 4.0 with the ALOORA customer platform and ALSA sampling app.

WE STAND BY OUR VALUES

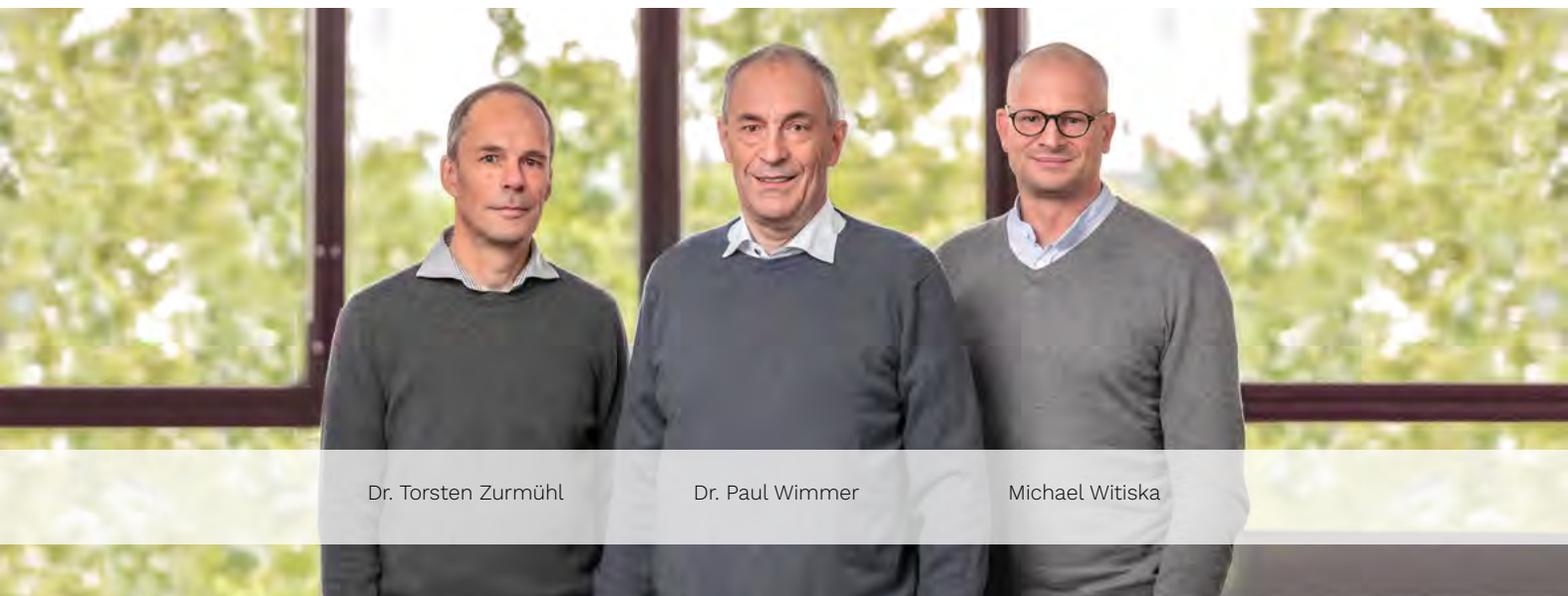

This promise does not just refer to the analysis results whose reliability and robustness AGROLAB attaches the utmost importance to. The corporate principles are also fixed coordinates guiding our everyday work.

We work at the highest professional level and strive to exceed our own quality standards time and time again. Scientifically defined measurement tolerances and current technical analytical determination are our benchmark.

Efficiency determines our work processes. This has a positive impact on quality, speed and costs.

We strive to maintain honest and fair working relationships with our customers, partners and colleagues.

As a neutral and independent service provider we are therefore pleased to put our work to the test and have our quality accredited in accordance with ISO/IEC 17025.
